This article covers the NAEG comments on PCNPA Draft Supplementary Planning Guidance on Conservation Areas Proposals for Newport and Newport Parrog Conservation Areas.

We submitted comments in July 2011, which can be seen by [clicking here](resources/110714-NAEG-Conservation-Areas-Comments-on-Draft-SPG.pdf "Click here to view our comments made in July 2011").

PCNPA Officers have now produced a consultation Report to the Authority on 12th October 2011 which you can see here: [http://www.pembrokeshirecoast.org.uk/Files/files/Committee/NPA/12_10_11/52-11%20Response%20to%20SPG.pdf](http://www.pembrokeshirecoast.org.uk/Files/files/Committee/NPA/12_10_11/52-11%20Response%20to%20SPG.pdf "View these proposals")

Whilst several of our criticisms and suggestions have been taken on board, NAEG is not satisfied with this response and will be writing again to the National Park concerning the response that a fundamental review of the Conservation Area supplementary planning guidance **"can"** be made which can consider many of the issues raised but without any indication on when such a review, as NAEG feels is necessary, especially for Newport Parrog Conservation Areas, will be possible.
